MESOTHERAPY

Mesotherapy holds a promising future for skin therapy. The treatment stimulates the mesoderm, or middle layer of the skin by administering minute amounts of homeopathic agents subcutaneously. To learn more on how Mesotherapy assists in the treatment of wrinkles, cellulite, flaccid skin, acne and seams & scars, contact the Canadian School of Mesotherapy.

Dr. Zinaida Chervinska, president of the Canadian Mesotherapy Association, pioneered Mesotherapy treatment in Canada. Dr. Chervinska completed the University of Bourdeaux Programme in Mesotherapie, studying under the renowned Dr. Philippe Petit. She recently founded a School of Meso Aesthetics and is an advocate of natural methods of medical & aesthetic treatments and preventive medicine. A former professor at a European medical university, she is a graduate of the Homeopathic College of Canada and the American Institute of Natural Sciences.
