

Meso-Aesthetic Treatments II

Liliana Dutka, DNM introduced Meso-Aesthetics to the Medical Spa professional industry and is enthusiastic about its potential. She is a trained Mesotherapist recognized by the Canadian Mesotherapy Association. Taking a holistic approach, she has developed a unique training program that combines knowledge of the bio-dynamics of skin, various organs, and skin & body treatments with the potential of Mesotherapy.

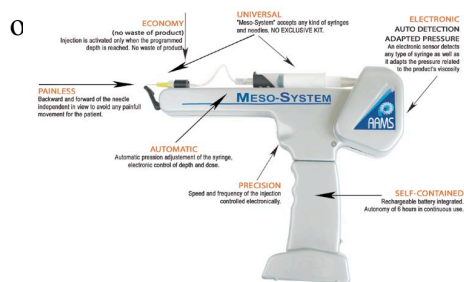

For more information on MayStar Meso-Aesthetics, she can be contacted at Formula Life Inc. 1-866-650-1777 www.formulalife.com info@formulalife.com

In our last article we introduced Mesotherapy & Meso-Aesthetics to Medical Spas & Clinics. To briefly recap, Mesotherapy is a new alternative medical aesthetics treatment that involves micro injections of small amounts of homeopathic agents. It is recognized by the French Medical Association and is supported by the Canadian Mesotherapy Association.

Mesotherapy is a powerful technique for,

- **f a c i a l** • **w r i n k l e**
- **rejuvenation,** • **softening**
- **cellulite** • **body sculpting**
- **alopecia** • **varicose veins**

Mesotherapy has become wildly popular and can be practiced only by trained Medical & Naturopath doctors or under the supervision of a doctor. Special computerized, programmable Mesotherapy guns have been developed to ease the procedure and to ensure that a constant amount & constant depth of injection is

Aestheticians, can now offer *Clinical* Meso-Aesthetic treatments to achieve similar effects or to complement clients' Mesotherapy treatments. With Meso-Aesthetic treatments clinics and spas can offer patients more immediate & satisfactory effects. **MayStar** is the only professional aesthetic care firm to have developed products, treatments & to offer an approach & results, on par with Mesotherapy. They combine the latest in *absorption enhancement technology* with leading edge ingredients to create truly unique & effective treatments that work with the needs of the meso-derm.

Meso-aesthetics has spawned what is commonly called the Third Generation of intelligent aesthetic treatments – the latest after Retinol and Glycosure AHAs.

MayStar's Caviar face and body treatments offer the skin extraordinary regenerating powers, and long lasting firming. Not just luxurious, they are built on a novel, carefully extracted Caviar complex of pure, concentrated oligoelement extracts. Skin is encouraged to itself regenerate collagen & elastin. This therapy involves many of the same elements used in Mesotherapy for facial rejuvenation – essential amino acids, structural peptides, proteins, essential fatty acids, trace elements, iodine, Hydroplex HHG ®, hyaluronic acid, squaline and Vitamin E.

Myo-aging is reduced with Aminocontraxyl®, found in **Satin Expression**. It acts on the interior of the wrinkle, relaxing and unfolding the skin thanks to this patented product. Expression lines are softened by neutralising the neurotransmitters responsible for muscular contraction. It modulates signals from the nervous system causing tiny breaks in the signals and thus relaxing and smoothing out the wrinkle. **Satin Expression** is a non-toxic and painless alternative to treatment by micro-injections with the BotulinumToxin (Botox®). Patients can use **Satin Expression** to extend or to test the effects of of Botox ®.

BodyStar

MayStar's BodyStar Drena-Cell & Caviar Cell-Shock treatments include the same slimming ingredients used in Mesotherapy – phospholipids, caffeine & an Isocell Slim ® complex. These replicate the Mesotherapy process, with special formulations & techniques (including patches) that enhance penetration & increase circulation. The treatments are so effective that *medical doctors use them to*
